## **About Westminster:**

Managed by an experienced team, Westminster is focused on exploring and developing prospects on a land package of approximately 17,854 hectares of continuous mineral concessions in Sonora, Mexico. The Company's focus has been to assemble and explore unique and newly-discovered targets including (a) the Guayacan partially unroofed epithermal and copper-gold porphyry system, and (b) the Sierra Hydrothermal diatreme breccia tertiary rhyolite hosted structure. Systematic exploration of the Company's new mineral district is ongoing in this region of Sonora with well-developed infrastructure, favorable permitting, and a strong mining history and community support.
